# free standing divider

Stay connected and create a sense of well-being while dividing space within your exhibit with a 39" wide freestanding divider.

This versatile divider provides additional protection for attendees and may be used between ottomans or placed between chairs to help maintain physical distance.

Graphic personalization available.

## TRANSLUCENT FREE STANDING DIVIDER

**A.** 85051 - Free Standing Divider without a Graphic

**B.** 85052 - Free Standing Divider Single Sided Graphic

## OPAQUE FREE STANDING DIVIDER

# connecting panel

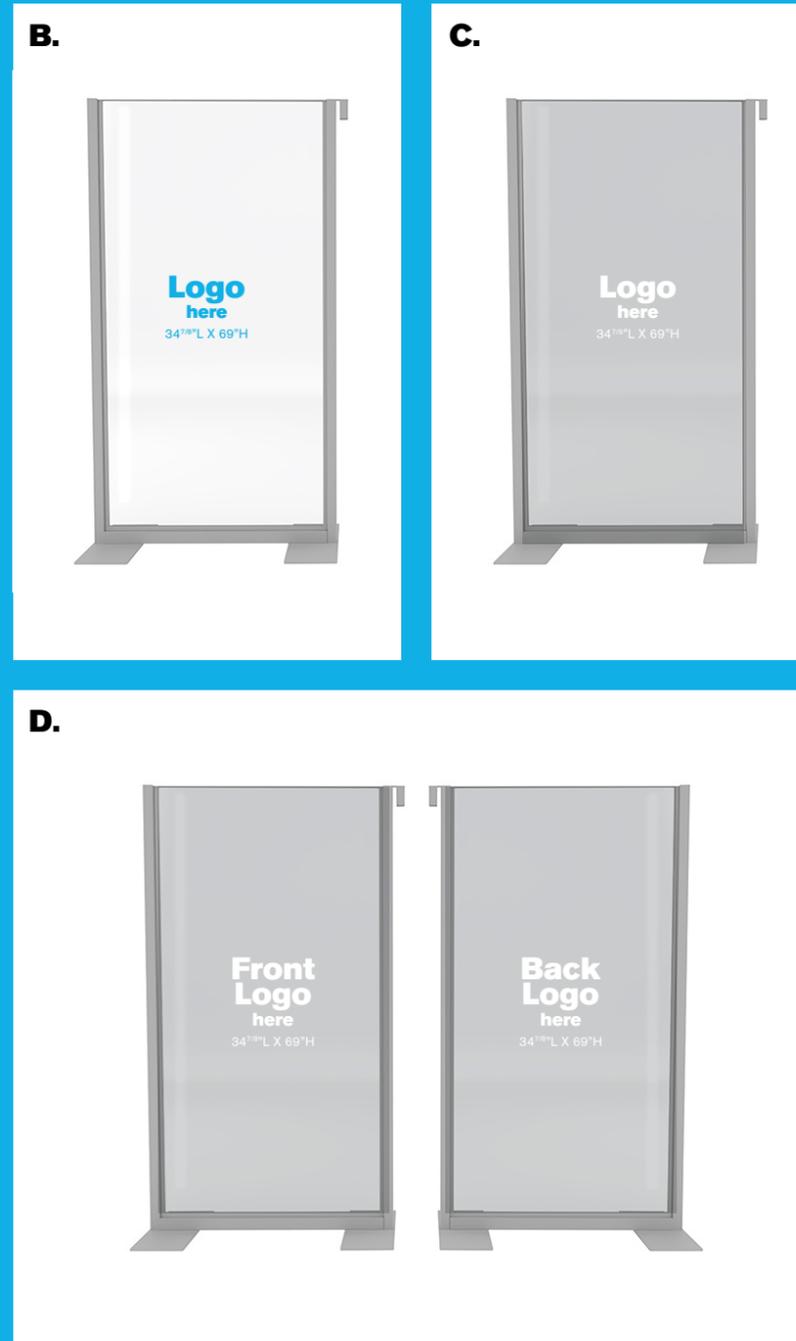

Use these connecting panels to create wall dividers within your exhibit. These 39" wide freestanding dividers can create semi-private, safe meeting spaces or separate your booth space from the aisles.

Featuring a metal frame, stable base plates and connector to link together; this versatile divider provides additional protection for attendees and may be used in a straight line or adjoined with the corner configuration to help maintain physical distance. Corner configuration options are available on the next page.

Add graphics for a custom look.

**F.** 85048 - Corner Divider with Double-Sided Graphics

# counter top guards

Counter top clear guards will provide a quick to assemble means of dividing the space between a service counter attendant and an attendee. These guards are ideal for flat surface applications like desks, draped tables, or showcases.

The panels are designed from rigid 1/4" plexi glass with clear feet for complete visibility and fast tool-less assembly.

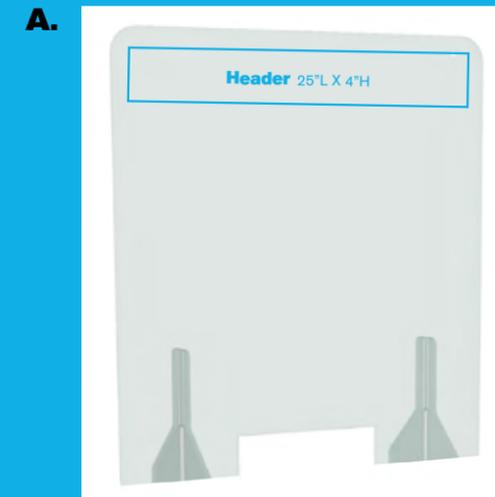

## CLEAR GUARDS

- B. 1510101 - Clear Guard without graphic

# SmartCounter guards

SmartCounter guards will provide a quick to assemble means of dividing the space between a counter attendant and an attendee. Contour cut feet allow the guard to be placed securely on the counter top of a SmartCounter.

The panels are designed from rigid 1/4" plexi glass with clear feet for complete visibility and fast tool-less assembly.

## SMARTCOUNTER GUARD

# sanitization products and services

## A. Hand Sanitizer Stand

Using hand sanitizer reduces microbial counts and kills many harmful germs that could compromise the health of attendees with the COVID-19 and other viruses. Hand sanitizing stations provide convenient access to hand sanitizer after interactions where they happen.

## B. Electrostatic Misting Service

Our technicians are awarded the highest accreditation in the industry for cleaning and disinfection procedures in response to COVID-19, including the new GBAC standards. All disinfecting and sanitizing chemicals are approved by government regulatory agencies to neutralize COVID-19 and other viruses. The chemicals can be used on a variety of surfaces without damage, including hardwoods and fabric. Area must be vacated prior to misting service application.

**Available only to show organizers.**

## C. High-Touch Surface Cleaning

Disinfection and sanitization wipe down of all common high touch surface areas (chairs, countertops, and tables) with cleaning solution that meets GBAC Standards.
